at TogetherSpokane.org

Latah/Hangman Projects

New Qualchan Hills Park

- The Park levy would build a new park on city-owned land
- The design would be developed in collaboration with the neighborhood, to ensure it had their desired amenities (sport court, picnic area, trail access, etc.)
- This park would serve about 2,100 homes and provide closer access to playfields
- More details at TogetherSpokane.com/qualchan-hills-park

Planning for New Elementary School

- If the School bond passes, SPS will do the design work for a new elementary school (to be constructed in a future bond)
- Parks and Spokane Schools currently own adjacent properties, allowing for collaborative design

New Playgrounds & Restrooms

- New playgrounds at High Bridge and Wentel Grant
- Restroom renovations or replacements
- Disc golf course upgrades at High Bridge

Daily Maintenance & Safety

- 50% more maintenance staff to care for all neighborhood parks (Wentel Grant, Campion, High Bridge, South Hill Bluffs, Latah Creek Conservation Area)
- 2x the Park Ranger team to patrol all City parks, assigned by district (4x if the SPS bond also passes)

Natural Land Conservation & Management

- Creation of a maintenance team to care for our natural lands, ongoing fire fuels mitigation work, and natural land preservation, plus a contribution to the Fish Lake Trail connectivity project

Together Spokane is a partnership between a Spokane Parks levy and a Spokane Public Schools bond, two separate but aligned ballot initiatives this November. To learn more about the 200+ Together Spokane projects, please visit www.TogetherSpokane.org.
